** DXCC: ZP: Paraguay ; square GG22; start 2012-06-23 **

Greetings to all,

I plan to be QRV on 144.131 transmitting first on Saturday June 23 from
my moonrise at 1330z for as long as I can stay in the radio club . . .
perhaps until 2359z, my moonset. It does not look like I will have the
new preamp in time for this session, but there is a chance. Without the
new preamp I do not hear as well as I should, for which I apologize.

The station is in GG22BQ, with 250 watts output to a pair of 9 element
horizontally polarized yagis.

Sunday operation is not possible for me, and after the 23rd my only
other window for operation appears to be July 3 and 4. Then I will come
back to the U. S. until early February 2013. I hope to put up the EME
station at the central radio club in Asuncion, ZP5AA, in mid February
2013. I plan to have a 432 mHz yagi to at least work the big stations on
that band. I will also bring back a sequencer and preamps for 144 and 432.

Hope to work many of you on the 23rd.
